## PROFESSIONAL SUMMARY

---

Research economist with over 10 years of experience in quantitative analysis using STATA and R, specializing in causal inference using advanced econometric methods. Experienced in applied microeconomic research in labor, development and public policy, with a focus on issues of women's earnings, labor force participation and fertility through an equity-focused intersectional lens.

## WORK EXPERIENCE

---

### Institute for Women's Policy Research

#### Senior Social Science Research and Data Analyst

Washington, DC

Feb 2025–present

Doing quantitative analysis with large public and novel datasets in STATA, R, and Excel, for IWPR blogs, reports, and data visualizations

Updating organization-wide data warehousing, methodological and research processes, and training junior research staff

Managing projects from concept to publication, across multiple teams and concurrent timelines

Collaborating with other researchers in a multi-disciplinary environment to identify and fill gaps in existing research, drafting data sharing agreements, grant proposals, conference submissions and presentations

### Department of Economics, University of Maryland

#### Instructor, Mathematics for Economics

College Park, MD

Aug 2021–May 2023

Taught classes of 30-50 students, planned syllabi, created and graded evaluations and assignments

#### Research Assistant for Dr. Nolan Pope

Aug 2019–June 2021

Executed research projects using STATA, submitted to journals for peer review and publication

Quantitatively analyzed data using advanced econometric techniques, created data visualizations and co-wrote papers to academic publishing standard

Extracted, compiled, cleaned and prepared multiple large datasets for statistical analysis

Edited and finalized grant applications, authored journal submissions and FOIA requests

#### Teaching Assistant, Undergraduate and Graduate Economics

Aug 2017–May 2019

Evaluated assignments, moderated class presentations, developed and taught supplementary classes to support faculty instruction for large undergraduate and Masters-level economics classes

### Queen Mary University of London

#### Research Assistant for Dr. Anja Prummer

London, United Kingdom

May 2017–July 2017

Programmed complex social network data analysis using large dataset in R

### Indira Gandhi Institute of Development Research

#### Research Assistant, NSE-IGIDR Corporate Governance Initiative

Mumbai, India

Nov 2014–Aug 2015

Created a large dataset on gender and performance of corporate executive boards in India from multiple public reports, analyzed data and literature for academic papers and presentations

## EDUCATION

---
