PROFESSIONAL SUMMARY

Economist with 10+ years of experience in evidence-based policy analysis using large datasets in STATA and R, specializing in causal inference using advanced econometric methods. Passionate about using research to improve the lives and livelihoods of women, especially those with marginalized identities. Trained in applied economic research in labor, development and public policy, with a focus on issues of women's earnings, employment, labor force participation, and occupational segregation.

WORK EXPERIENCE

Institute for Women's Policy Research

Washington, DC

Senior Social Science Research and Data Analyst

Feb 2025–present

Quantitative analysis of large public and novel labor market datasets like ACS, CPS, HPS, BRFSS, and CES in STATA, R, and Excel, to produce 20+ blogs, reports, and data visualizations

Standardizing organization-wide data warehousing across remote and cloud workspaces, training, managing and onboarding multiple junior research staff

Managing projects from concept to publication, across multiple teams and concurrent timelines

Collaborating with other researchers in a multi-disciplinary environment to identify and fill gaps in existing research, drafting data sharing agreements, grant proposals, conference submissions and presentations

Department of Economics, University of Maryland

College Park, MD

Instructor and Teaching Assistant, Undergraduate Economics

Aug 2021–May 2023

Taught classes of 30-50 undergraduate students, planned syllabi and graded assignments

Research Assistant for Dr. Nolan Pope

Aug 2019–June 2021

Executed research projects using STATA, submitted to academic journals for peer review and publication

Quantitatively analyzed data using advanced econometric techniques, created data visualizations and co-wrote papers to academic publishing standard, making sure findings were reproducible and robust

Extracted, compiled, cleaned and prepared multiple large datasets for statistical analysis

Edited and finalized grant applications, authored journal submissions and FOIA requests

Teaching Assistant, Undergraduate and Graduate Economics

Aug 2017–May 2019

Evaluated assignments, moderated class presentations, developed and taught supplementary classes to support faculty instruction for large undergraduate and Masters-level economics classes of 60-120 students

Queen Mary University of London

London, United Kingdom

Research Assistant for Dr. Anja Prummer

May 2017–July 2017

Programmed complex social network data analysis using large dataset in R

Indira Gandhi Institute of Development Research

Mumbai, India

Research Assistant, NSE-IGIDR Corporate Governance Initiative

Nov 2014–Aug 2015

Created a large dataset on gender and performance of corporate executive boards in India from multiple public reports, analyzed data and literature for academic papers and presentations

EDUCATION

Ph.D. Economics, University of Maryland, College Park

August 2023

Faculty Student Research Award (with Nolan Pope), Behavioral and Social Sciences, 2019-20

K.P. and Jayalakshmi Muddappa Graduate Award in Economics, 2017-18

M.Res. Economics, Queen Mary University of London

August 2017

M.Sc. Economics, University College London

September 2016

B.Sc. Economics, University of Warwick

July 2014

Undergraduate Research Scholarship Scheme, Summer 2013

SKILLS

STATA, R, SPSS, Wordpress, Matlab, LaTeX, MS Excel, Datawrapper, intermediate French, beginner Spanish, fluent Hindi and Bangla
