WORK EXPERIENCE

Institute for Women's Policy Research Washington, DC
Senior Social Science Research and Data Analyst Feb 2025 – present

- Doing quantitative research using STATA, R, and Excel for core IWPR projects producing briefs, reports, and data visualizations, working across different teams and juggling multiple projects and timelines
- Identifying and preparing for new data analysis needs, updating methodological and data processes, helping further develop quantitative analysis and research skills of junior research staff
- Working with other senior researchers to identify and produce research in new topics in core IWPR areas, utilizing existing and new datasets

Department of Economics, University of Maryland College Park, MD
Instructor, Mathematics for Economics Aug 2021 – May 2023

Taught university-level classes of 30-50 students, planning syllabi, evaluations and assignments, reorganizing standard length courses for shorter summer and winter terms, adapting to virtual teaching

Research Assistant for Dr. Nolan Pope Aug. 2019 – June 2021

- Executed multiple research projects using STATA, submitted to journals for peer review and publication
- Quantitatively analyzed data using advanced econometric techniques, created data visualizations to academic publishing standard
- Extracted, compiled, cleaned and prepared multiple large datasets for statistical analysis
- Edited and finalized grant applications, authored journal submissions and FOIA requests.

Teaching Assistant, Undergraduate and Graduate Economics Aug. 2017 – May 2019

Evaluated assignments, moderated class presentations, developed and taught supplementary classes to support faculty instruction for large introductory-level undergraduate economics classes of 200+ students

Queen Mary University of London London, United Kingdom
Research Assistant for Dr. Anja Prummer May 2017 – July 2017

Programmed complex social network data analysis using large dataset in R for academic paper

Indira Gandhi Institute of Development Research Mumbai, India
Research Assistant, NSE-IGIDR Corporate Governance Research Initiative Nov. 2014 – Aug. 2015

Manually created a large dataset on gender and corporate executive boards in India, made data visualizations and summary reports for academic papers and presentations
